Microsoft Security, Compliance, and Identity Fundamentals: Describe the concepts of security, compliance, and identity

Practice for the exam

PRACTICE ASSESSMENT

Assess your knowledge

Practice assessments provide you with an overview of the style, wording, and difficulty of the questions you're likely to experience on the exam. Through these assessments, you're able to assess your readiness, determine where additional preparation is needed, and fill knowledge gaps bringing you one step closer to the likelihood of passing your exam.

[Take the practice assessment](#)

EXAM SANDBOX

Experience demo

Experience the look and feel of the exam before taking it for real. You can use the Exam Sandbox to practice taking the exam.

[Launch the sandbox](#)

Mock-up exam with
realistic environment

Take the exam

You will have 45 minutes to complete this assessment.

Exam policy

This exam will be proctored, and is not open book. You may have interactive components to complete as part of this exam. To learn more about exam duration and experience, visit: [Exam duration and exam experience](#).

If you fail a certification exam, don't worry. You can retake it 24 hours after the first attempt. For subsequent retakes, the amount of time varies. For full details, visit: [Exam retake policy](#).

Set up your Microsoft 365 E5 sandbox

Choose your Microsoft 365 E5 developer sandbox:

Instant sandbox

Includes everything you need to build Microsoft 365 apps and solutions.

The sandbox is preconfigured with 16 fictitious users, Microsoft Teams sample data pack with App Studio and custom apps preconfigured, and data for Microsoft Graph and Office Add-ins development.

Users

Mail & Events

Microsoft Teams

This option does not require provisioning or manual set up. You create a password; your domain name is preconfigured and is not customizable.

Configurable sandbox

Configure your own sandbox from scratch. This subscription can take up to two days to provision and you must manually add sample data.

You can customize the domain name.

If you are trying to redeem the offer of a new developer sandbox, there are currently service issues preventing most customers from redeeming the offer. We're sorry to hear that you are having issues joining the developer program. We're also updating the error message to be more specific.

Country-specific outages

We recently had some service issues and many countries were temporarily blocked from joining (including yours). This issue has resolved but note the following: Geographic limitations. For technical and security reasons, the Microsoft 365 Developer Program only supports a subset of countries/regions listed here: [Microsoft 365 International Availability](#). We review our supported country list regularly. If you are unable to sign up from your country or region, then it means we do not support it at this time. Membership benefits

While you can still join the developer program, **access to the free Microsoft 365 E5 subscription is currently paused for the short-term while we adjust the qualifications for that benefit**. To stay apprised of changes, please follow our blog.
